## PROJECTS

### SMART TROLLEY USING RFID

- The modern technology has increased the standard of living for the humans.
- To handle the large crowd, we must reduce the process of billing time. This is done using Smart Shopping System using RFID

### FACIAL RECOGNITION SYSTEM FOR EXPRESSION DETECTION

- Face detection is a process of identifying human faces in images or videos.
- It is a rapidly expanding area of computer vision that offers a variety of useful applications, such as security systems, face identification, and picture analysis.
